

Make the same amount of money

True or False?

5 copper coins can be worth more than 1 silver coin.

Make 50p three ways using the coins below.

You can use the coins more than once.

Challenge:

What could Oscar have?

How many different answers can you find?

Jackson buys bread and milk.

How much does he spend?

 15p	 25p	 28p
 35p	 50p	 30p

 35p	 70p	 55p
 25p	 45p	 50p

- Choose a toy and pay for it using the correct coins.
- Choose two items.
- Find the correct coins and add the two amounts together.

I have 20p.

My change is more than 5p but less than 10p.

What could I have bought?
